

South Metro Fire Rescue (SMFR) provides fire and emergency medical response and community risk reduction services to residents and businesses within Arapahoe, Douglas and Jefferson counties in Colorado. SMFR is a full-service fire district, offering construction plan reviews and permits, fire safety inspections, fleet services, training, information technology, human resources, life safety education, community relations and management. The District is also an “internationally accredited agency,” recently rated in the best possible fire protection class by the Insurance Services Organization, an ISO 1 designation.
