Chief Baker,

I am writing this letter to inform you of the exemplary work that one of your members is doing. Late last year one of my firefighters reached out to the Tradenet network for some assistance with Community Risk Reduction. One of your Educators, Einar Jensen, answered the call. Einar was able to teach a group of Iowa firefighters and chiefs a great deal about this subject. It was very clear from the beginning that he is an expert in his field. His approachability, teaching style and most importantly, his knowledge truly made this a successful class. In fact, many of the items that we are using today in our fire department are due to his willingness to share his knowledge.

I cannot express to you enough, the appreciation that we have for your department willing to share their knowledge and experience as well as Einars' enthusiasm for this subject. Please pass along our thanks and know that you have assembled quite an "All Star" team. One more example why the fire service is "The best job in the world".

Respectfully,

A handwritten signature in black ink that reads "Jeffrey Swanson". The signature is fluid and cursive, with a large initial "J" and "S".
